Webinar:

Ringing in Change: Strategic Bell Time Optimization

A discussion of the efficiencies gained by aligning and balancing bell times.

In this webinar, Carl Allen, 4MATIV's CEO, and Chris Burkhardt, Chief Operating Officer of Cincinnati Public Schools, discuss the benefits of aligning and balancing school bell times. Chris shares key learnings from Cincinnati, including how to leverage robust data and a meaningful stakeholder engagement process.

4MATIV is transforming student mobility. With our technology and performance management platform and multi-modal approach, we get students to school for less cost and with less hassle so they can access the learning opportunities that maximize their potential. For more information, visit 4mativ.org.
